Crowe Valley Conservation Authority (CVCA) - Flood Warning

CVCA has issued an update [Flood Watch](#) for the Crowe Valley watershed. Belmont Lake was measured on April 17 at 187.99 (+90 cm / 35.5" above summer level). The lake appears to have stabilized at this level for now. Flow rates in the rivers in our watershed continue to be extremely high, with flow rates in Marmorra running approximately 2x the average for this time of year.
